Professional Summary

Data Analyst with hands-on experience in Python, SQL, Power BI and business analytics. Experienced in data cleaning, exploratory analysis, dashboard development, and reporting. Strong analytical mindset. Looking for a degree in Data Science and an entry-level Data Analyst role where I can help drive data-informed business decisions.

Education

Bachelor's degree in Data Science

Universidad de La Salle | Bogotá | Expected 2030

Currently pursuing a Bachelor's degree in Data Science, building a strong foundation in mathematics, statistics, programming, databases, and machine learning. Developing analytical and problem-solving skills through coursework in data analysis, statistical modeling, and artificial intelligence.

Data Analytics Bootcamp

TripleTen | Remote | 2025-2026

Completed an intensive project-based Data Analytics bootcamp covering Python, SQL, statistical analysis, data wrangling, machine learning fundamentals, business analytics, automation, and predictive modeling. Applied these skills through multiple end-to-end analytics projects using real-world datasets.

Technical Experience

Data Hackathon

Participant 2026

Collaborated with a multidisciplinary team to develop a data-driven solution within a limited time frame. Performed data preparation, analysis, and visualization to support project objectives. Presented findings and recommendations to judges and participants.

Marketing Performance Analysis

Data Analytics Project

Analyzed the performance of multiple marketing sources through business metrics, CAC (Customer Acquisition Cost), LTV (Lifetime Value), and ROMI (Return on Marketing Investment) using data from user sessions, orders, and marketing costs for an online store.
